TO WHOM IT MAY CONCERN

Kaydon Corporation, Bearings Division is pleased to announce their full SALES and TECHNICAL SUPPORT to:

SC BRAPRIM SRL
52, Constantin Brancoveanu str.
500132 Brasov
ROMANIA

BRAPRIM will have access to the Kaydon Bearings Division full product range and the Product Engineering Department to help support and review all your bearing requirements.

Kaydon offers the industry's most comprehensive range of thin section bearings. Kaydon Reali-Slim® thin section bearing bore sizes range from 25mm to 1 meter with cross-sections from 4.75mm to 25mm. Kaydon slewing ring bearings are available in diameters up to 6.1 meters and include single and multiple row ball and roller bearing arrangements. Industries served include the aerospace and defense, general machinery, medical, semiconductor, and renewable energy markets.
